### SCHOOL BOARD TO PROPOSE CHECK ON STUDENTS WHO SHIRK STUDIES

Changes will be proposed at the next meeting of the Arlington School Committee in the School Committee rules to allow the administration to take action with pupils in the Town's secondary schools who refuse to make any reasonable effort with school work assigned to them.

At a meeting of the School Committee Tuesday night at which six of the Board's nine members were present indifference toward academic work by some secondary school pupils was the major topic for discussion by the Committee.

Superintendent Clifford Hall brought to the attention of the Committee a developing situation whereby pupils who are not necessarily disciplinary problems are refusing to make any effort with school work or do any homework whatsoever. According to Hall efforts by teachers, counselors, and administration have little effect on these pupils.

The Superintendent stated in a news release to this paper that actually these youngsters repre-

sent about one per cent of the secondary school population, but that it was felt by the administration that this attitude on the part of these pupils calls for drastic action before it increases.

After all other efforts by teachers and counselors have failed, school officials may in the future:

- 1.—Place the pupil on probation, at which time he will be sent home with a note of exclusion until the parents come to the school with the child for an interview with the principal.

- 2.—Suspension, at which time the pupil will be sent home and excluded, with letters sent by mail to the parents and the Superintendent. The pupil will only be allowed to return after an interview between the parents, the pupil and the Superintendent.

OK Appleton Construction That this is not necessarily a local problem is evidenced according to the School Department release by the fact that a popular

### 'You Too Can Help

Arlington mothers and teenagers have combined this year to fight Polio in the Annual "Mothers March" January 28. In Arlington, Mothers will march between the hours of 7-8 p.m. Won't you try to be home at that time and do your part.

A year ago the "March" netted a total of \$7500, over half of the total amount realized during last year's March of Dimes Drive in Arlington.

Headquarters will be set up in the Golden Age Club at the Old Town Hall; anyone wishing to volunteer for the Mothers March can do so by calling Mission 8-6483.

Among those serving on the Committee planning the drive are: Mrs. Bee Rogers, Mrs. Mary Richardson, Mrs. Betty Greeley, Mrs. Marion Nugent, Mrs. Roy Milly, Mrs. Cardullo, Mrs. Hartley Noble, Mrs. Buchanan, Mrs. Ralph Abbott, Mrs. Palidini, Mrs. Warren French, members of the Arlington Auxiliary Police, Lt. Philip Sweeney, Ken Cameron. The Civil Defense radio ham network with Al Davidson in charge will do its part, in helping put the drive over. You too can help.

### Employees Meet To Discuss Wage Recommendation

Arlington's Town Employees will have the opportunity to air their feelings on the raises recommended by the Personnel Board last week at a meeting to be held at the Junior High School East, at 8 p.m.

A wage committee, composed of members of the Arlington Municipal Employees Association, the Employees Union, and the fire and police conduct the meeting which will be held for the purpose of the chance to explain how he feels giving any employee of the town about the recommended wage hike.

The meeting was called after the Personnel Board a week ago announced in the local papers that it was recommending a \$178 cost of living increase or four per cent whichever is the greater for the salaried employees of the Town and a \$3.40 increase or four per cent for the weekly employees, effective April 1, 1958.

Previously, after a meeting held last fall, a group of Town Employees asked a \$500 pay increase.

### Governor At Dedication Of Third New Skating Area

Weather permitting, the M.D.C. skating rink, off Route 2 at the Arlington-Cambridge-Belmont line will be opened Friday. The rink, the third to be opened by the MDC in recent weeks, will offer skating on two separate rinks. The overall ice surface which encompasses an area of 264 x 85 feet is divided into larger and smaller ice surfaces. The larger of the two areas measures 85 x 185 feet and the smaller 65x85 feet. The smaller area will be utilized for beginners and the larger area for general skating sessions and hockey games and practice.

The Arlington rink surface will be well-lighted for skating and night hockey by fourteen powerful flood lights situated on seven light towers around the rink.

Construction of the Arlington rink has been held up longer than construction on the other two rinks which opened in Medford and Hyde Park because of more difficulty in construction of the foundation.

Ice will also have to be imported as base for the rink areas in the

Arlington structure. Some four or five inches of ice chips will be spread at the bottom of the two surfaces to provide a firm foundation for flooding and refrigeration. The new MDC building will include toilet facilities, checking rooms, concession areas and dressing rooms for hockey teams. An estimated 500 persons turned out for the opening of the new artificial rink in Medford in Medford a week ago.

The rink, called the "newest in the United States" will provide a long awaited practice area for high schools from Arlington, Cambridge, and other towns in the area.

Entertainment will be a feature of the dedication ceremonies and it is expected that a prominent skater will be on hand as was the case at the opening at the other two rinks.

The Rink will be officially opened by Governor Foster Furcolo; Commissioner of the Metropolitan District Commission Charles Green.

magazine has recently published an article concerning this tendency which seems to be developing among young pupils throughout the country.

In other action at the Tuesday night meeting, the School Committee voted that the plans for construction of parking areas and a paved roadway at Appleton place are acceptable as presented.

Town Manager Edward C. Monahan and Selectman Franklin W. Hurd, appeared before the Committee as representatives of a special Town Committee to explain the Appleton place and parking area proposals at the Junior High School West property.

Professor Forest of the School Committee and also a member of the special committee outlined the plans in detail.

At the same time the Committee voted to approve the Annual Report of the Schools for the year 1957.

The School Committee will meet with the Finance Committee Tuesday night to discuss the budget.

The School department does not plan to insert any other school articles in the Warrant this year other than the one relative to the school budget.

## Board Approves Five Streets Under Chapter 718

At the Monday night meeting of the Board of Selectmen five streets were approved by the Board as those to be constructed as proposed Chapter 718 projects.

Under Chapter 718 a sum of money was granted to communities throughout the state two years ago to be used for street construction. Arlington's share was \$115,000. Last year \$63,100 was utilized for street construction. Earlier this year a sum of \$10,292.15 has been earmarked by the Board of Selectmen for work on Pond Lane.

Approved at Monday night's meeting were: Lewis ave., \$6,600; Beacon street, \$7,500; Park street, \$12,000; Decatur street, \$4,000; and North Union street, \$10,000.

The State must approve these streets and will then send a check covering the amount to be paid for construction. This amount will then be voted on at Town Meeting.

## Board Meets At 4 P.M.

The Arlington Board of Selectmen will meet Monday, January 27 at 4 p.m. instead of at the regularly scheduled time of 7:15 p.m. The Finance Committee will also sit in at this meeting just prior to the closing of the Warrant at 5 p.m.

On January 21 the proprietor of the Broadway Market told police that a BB shot had struck the front window of his store.

A fourth report of BB shot hitting windows came in to local police on January 20 when the owner of the Glen Typewriter Company on Broadway reported that the window in his store had been struck by a BB shot.

## Within Town Limits

By Walt Moynihan

The League of Women Voters will sponsor its annual Candidates Night program at the Junior High East at 8 p.m., February 25.

Once again this gives candidates for public office in the coming election a chance to meet and say a few words to the voters of Arlington.

Once again it seems well to point out the fact that the League of Women Voters does not support any of the candidates who will appear on the program, but in presenting the qualifications and opinions of all candidates who wish to appear, hopes to encourage more active participation of all the Town citizenry in local government.

Although, it doesn't seem that a candidate would gain or lose enough support at one of these annual events to change the course or outcome of an election, it is entirely possible that this could happen. At any rate they have attracted large crowds in the past, and it is to be hoped that residents will once again take advantage of the opportunity to attend.

The "What is Going to Happen to Our Railroad" question which had been drawing headlines in Boston and local papers during the recent DPU hearings has been brought back into the public eye by recent statements by Boston & Maine President Patrick McGinnis.

In a story which appeared on page six of the January 16 issue of the Arlington NEWS the B. and M. head noted while discussing the proposed abandonment of what he called unprofitable passenger lines in 26 communities which are in competition with a municipally owned transit system that such duplication of service is an "inexcusable waste."

Later, last week, McGinnis reportedly made the statement that some 100,000 employees of seven eastern railroads including thousands in Mass. would be laid off within the next three months because of what he termed "deplorable financial conditions."

Just where this leaves the Town of Arlington as far as the possible curtailment of service here is not known. Right now, all sworn testimony taken at the hearings is under discussion by the Department of Public Utilities and it is up to them to decide the ultimate fate of the lines involved. It is understood that a commission is yet to be formed to further study the matter.

From here the solving of the transportation problem is one that seems more than a few weeks away.

Although he voted in favor of granting permission, along with the other three members of the Board of Selectmen present at Monday night's session at the Town Hall, relative to a request to hunt in the Great Meadows at this time, Selectman Joseph Greeley stated that he would vote against any request to hunt in the area next year.

It is anticipated that the area will be utilized in the not too distant future as an area where study of nature may be made by scout groups and school groups of the community.

At the same time Selectman Greeley made a motion that an Article be inserted in the Warrant for the Annual Town Meeting requesting the sum of \$10,000 to be used to look up titles of the land in the Great Meadows and the laying out of boundary lines. The article would be sponsored by the Great Meadows Committee. The Board was in unanimous approval of such an article being inserted.

Unofficially, the Warrant for

next month's Town Meeting will be as long as the 90 article plus warrants which have been acted upon in recent years, possibly, the hundred mark will be hit for the first time.

According to reports an estimated 50 articles have already been submitted or spoken for with a rush of articles expected late this week and Monday.

Thirteen articles concerning streets and another thirteen or thereabouts from the Personnel Board will be included.

The Development Commission is expected to sponsor several articles concerning the Center area including the one asking for the taking of the Russell Common by eminent domain.

Selectman Franklin Hurd reported on the Governor's Conference which he attended last Saturday at Monday's Selectmen's meeting and made note of the fact that the problems of tax rate, methods of voting, etc., seem to be general throughout the area.

## Donald Avery, Bob Hiatt Win Eagle Scouting Awards

At a combined Court of Honor held at the Park Avenue Congregational Church on January 20, Donald Avery of Troop 41 and Robert Hiatt of Troop 85 received the badge of an Eagle Scout, the highest scout rank in the Boy Scout organization.

Participating in the special ceremonies were leaders from the Arlington District and Sachem Council. Mr. Donald Johnson, District Chairman, addressed the Eagle Candidates, reminding them of the honor of their achievement and the responsibilities which attend the holder of an Eagle badge. Mr. Charles Clark, District Commissioner, conducted the examination of the candidates and Mr. Herky Foster, Field Executive from Sachem Council, presented the Eagle pins and certificates on behalf of the National Council, Boy Scouts of America.

An honor guard of former Eagle Scouts, including Charles Reinhold, Charles Sampson, Horace Homer, and Herky Foster, escorted the candidates to the Court of Honor.

Mr. and Mrs. Ralph Hiatt and Mr. and Mrs. Donald Avery joined their sons for the award and miniature Eagle pins were presented to the boys by their mothers. Attending the ceremony were Mr. Joe Skenderian and Mr. Joe Walker representing Troop 41 and Mr. Phillip Blacksmith and Mr. Ted Brayton representing Troop 85.

### Outstanding Boys

Both of the boys have distinguished records in continuous scouting service. Robert Hiatt has been active in camping and has represented Troop 85 at the National Jamboree in Valley Forge last year. In 1957 he was elected to the Order of the Arrow and to the Order of Nikiwigi at Camp Sachem.

Donald Avery was elected to the Order of the Arrow in 1955 and in 1954 he was sent to Tamaracout in Canada by Troop 41 in recognition of his outstanding participation in troop activities.

Mr. Harold Watson, Neighborhood Commissioner for Troops 41

and 85, opened the ceremonies, noting that this was the first occasion in the District in which two troops had joined for a Court of Honor.

## Menotomy Digest

The Board of Selectmen Monday night certified per request of the Secretary of the Commonwealth Alice E. Verney, 56 School street, in connection with the incorporation of the Congenital Paraplegic Foundation to be located in Boston.

The Board of Selectmen has received a communication from Edward Dana, General Manager of the MTA in response to the Board's letter of December 17, relative to a request for a shelter at Appleton street, advising that the Board of Trustees is adhering to the policy of not adding construction of shelters to cost of service.

At Monday's meeting of the Board of Selectmen the Annual Reports of the various departments of the Town were accepted.

Filed at the Monday night meeting of the Board of Selectmen was a communication from the Town Manager to Charles Schultz, president of the Boys' Club Associates, Inc., granting permission for the use of the Summer Street Playground for the Annual BCA Fair to be held during the latter part of June, 1958.

A communication has been received by the Town from the Commissioner of the State Department of Public Works advising of the 1958 tentative Chapter 90 allotment. The Town's share for work on Park and Pleasant street would be \$13,750, the County's share

would be \$13,750, and the State would pay \$27,500.

Sub bids for the high school addition will be opened today at noon and the bid for the general contractor next week.

## Support Article Of Access Bridge

The Arlington Board of Selectmen voted Monday night that it would support an Article in the Town Warrant for the Annual Town Meeting for the building of an access road and bridge according to the recommendations of the Town Engineer.

The Engineer in a previous letter to the Town Manager on the matter stated that total cost of the project would be \$24,900. He recommended that the abutments, wing walls and filling be done the first year with an appropriation of \$14,440 and that the remainder be done the second year with an appropriation of \$10,460.

The engineer stated that there are several reasons for doing the work in two years rather than one, the most important being to reduce the cost of the filling.

## Serves In Okinawa

Norman F. Harrow, communications technician, USN, son of Mr. and Mrs. Francis S. Harrow of 23 Howard street, Arlington, is serving at the U. S. Naval Air Facility, Naha, Okinawa.

## To Make Report

In a letter to Town Manager Edward C. Monahan this week, Chief of Police Albert E. Ryan stated that a complete report and study will be submitted on the request that Swan street be made a two-way street. Chief Ryan stated in a letter to the Manager that the petitioners cited hardships, hazards and inconveniences as the reasons for wanting to make Swan street a two way street.

Ryan stated that the fact residents of Swan street may have to travel farther to reach their homes should not be the motivating factor or sole basis for making the change.

## A Convenience

Arlington's Registrars of Voters will hold special night time sessions for the convenience of those residents of the Community who for one reason or another are unable to register during regular business hours at the Town Clerk's office at the Town Hall.

The first night registration session will be held January 27. Registrations close, on February 11.

Anyone, not a registered voter of the Town of Arlington, who possesses the necessary qualifications and wishes to become a voter of the Town is urged to take advantage of registering either during the day or at one of the special sessions.

## Traffic Signals

### Not Necessary

### At Brooks - Lake

The Arlington Board of Selectmen went along with the thoughts presented by Chief of Police Albert E. Ryan Monday night that traffic signals are not necessary at the intersection of Lake street and Brook street in East Arlington.

In a letter to the Town Manager's office Chief Ryan pointed out the governing factors which must be present to justify the installation of traffic signals as follows:

Vehicle volume on the principle street must exceed 750 vehicles per hour for each of eight hours of an average day.

Combined vehicle and pedestrian volume from the side street must exceed 125 units per hour for the same eight hours.

Excessive speed. Five or more reported accidents of types susceptible of correction by a traffic control signal having occurred within a twelve month period.

The Chief stated that none of the aforementioned factors are present at this intersection. The accident frequency record would not sustain any allegation that it was a hazardous intersection.

According to the Chief's letter 12 accidents have taken place at the intersection in a period of 21 years, two were pedestrian. There were no fatalities or serious injuries involved, which indicates speed was not a contributing factor.

In conclusion Ryan stated, "I should like to point out that it is only within the past two years that any degree of apprehension has arisen over this intersection, although the intersection itself has been present for 32 years. If conditions were as serious as some would attempt to lead us to believe, it is my opinion that the school authorities and the parents in the area would have instituted action before now. Nothing has occurred within the past two years which would cause me to change my opinion."

## Over 500 Sign Kent Papers

Kent stated, "I was very gratified by the enthusiastic response with which my candidacy met in all sections of Arlington."

"I have seen evidence everywhere of our townsmen's genuine interest in the school committee. They are well aware of the role the cost of education and school construction has played in our rising tax rate."

"As a former teacher I can understand and appreciate the problems facing the teaching profession, and as a businessman I am equally cognizant of the taxpayer's burden. Because of these facts, I sincerely believe that I can make a real contribution to the Arlington School Committee."

## PIERCE NEARS LEGION SCORING MARK SCORES 77 POINTS IN THREE GAMES

The Junior Legion's Warren Pierce scored 32 points Friday night as his team walloped the Heights club 53-35 in a Park Department basketball game at the Junior High West gymnasium. Pierce has now tallied 152 points for the season, just 19 short of the all time Legion scoring mark set in the 1954-55 season by Jack O'Leary. The season is at the halfway point.

Meanwhile, the Legion team also chalked up a win and a loss last week, picking up a 60-51 decision over the Forest entry, January 16, while dropping a 50-54 real close one to the Boys Club, January 14. The Legion team almost squeezed through to victory in the contest in the game with the Boys' Club, but a 6 point edge picked up over the first half by the Boys' Club was just enough to withstand a last period assault by the Legion.

Drewicz and Constantino paced the Boys' Club scorers with 8 points each, while Warren Pierce tallied 18 for the losers.

Six players scored more than ten points each in the game between the Legion entry and the Forest Club on January 16 which saw the winners pull away in the second half to set up the victory. Pierce tallied 27 points for the winners to pace the attack, while Fowler

added 15, and Scarlata 10. McWilliams and Murray tallied 14 points for the losers and Sullivan 11.

## Pucksters Edge Stoneham, Hold Fourth Place Alone

Arlington high school's entry in the GBI hockey race moved into undisputed possession of fourth place but a point from second place as first place Melrose clinched its second consecutive loop crown.

The locals grabbed the fourth and final playoff spot, at least, by a two point margin on a goal by John Allen just short of the eight minute mark of the final period.

Huebner had put Stoneham in front 1-0 at 2:26 of the first period and Arlington had tied the score just 38 seconds after the second period got underway on a goal by Aiken assisted by Brennan. At 7:54 of the final period Allen came through with his goal assisted by Chisolm.

Meanwhile, in other games, New-

ton knocked Belmont into seventh place in the league standings and insured itself of at least a tie for second place for the week by a 2-1 verdict over Belmont.

Surprising Cambridge Latin handed Rindge its sixth consecutive loss 6-0 to hold on to its share of second place. Melrose, meanwhile tallied two last period markers to clinch the title and knock Medford out of the first division.

Arlington with its fourth place position in the standing has scored 13 goals for the season, fifth best in the league while the opposition, on the other hand has tallied 10 goals against the locals, fourth lowest in the league.

## Program Planned For Young Couples

The year of 1958 will probably be as rushed as was the year 1957. Nevertheless, a little time taken out of our busy lives to take stock of our individual family relations is time well spent.

Middlesex County Extension Service is presenting a program for young couples who are married or about to be married, called "Development in Marriage." Joseph D. Burroughs, Professor and Extension Specialist in Human Relations at the University of Mass., will present this three meeting series.

This program will be held in Arlington from 7:30-9:30 p.m. February 6—"The husband and wife as individuals"  
February 13—"The husband and wife as partners"  
February 20—"The husband and wife as parents".

## Charles Blackmon Seeks Spot On School Board

Charles W. Blackmon of 15 Linden street this week announced his candidacy for the School Committee.

An expert in the field of budgetary control, Blackmon is Budget Officer of the Massachusetts Institute of Technology Lincoln Laboratory in Lexington. He has been an active participant in various educational, charitable, and youth organizations.

Born in Rochester, New York, Blackmon is a graduate of the University of Rochester, where he majored in economics and government. He did graduate work at the Rochester Institute of Technology, Tufts University and Boston University. He was District Manager for an affiliate of Thomas A. Edison, Inc., when he was called to the M.I.T. Radiation Laboratory shortly after the outbreak of World War II.

A homeowner and resident of Arlington for the past 14 years, he is married to the former Margaret Vail Hunter, and has four children, Margaret Ann, a pupil in Locke School, Peter and David who are enrolled in Arlington High and James, who is in the U. S. Air Force.

Blackmon has been a Town Meeting Member for the past six years, during two of which he served as Precinct 12 Chairman. He is President of the Arlington Community Chest, Inc., and was General Chairman of the 1957 Red Feather Campaign in Arlington. He also is a director of the Arlington Philharmonic Society, and Chairman of the Improvement League of Arlington, a non-partisan organization devoted to the study and promotion of good government.

A charter member of the Arlington School Citizen's Committee, Blackmon also has held offices and

committee chairmanships in both the Locke and the Junior High West P.T.A.'s. He was for many years active in Boy Scout work and served as Chairman of Cub Pack 85, and Committeeman of Troop 85.

Blackmon said, in a statement this week, "The critical international situation has focused attention on our school system as never before. The problems posed will call for a fine balance between the best in school instructional staff and facilities, and the ability of the taxpayer to shoulder the burden. I feel that my experience in the study of school problems, and the budgeting of educational funds will enable me to make a timely contribution to the school committee."

"I respectfully solicit the support of all Arlingtonians who believe in a strong school system free from any vestige of political influence, and administered with a sympathetic understanding of both the pupil and the taxpayer."

## High School Boys To Get Course In First Aid

Two members of the Arlington High School faculty, Mr. William Lowder and Mr. Robert Hill, have just completed a refresher course in the new American Red Cross First Aid.

The course was taught by Alfred Spital, assistant director of First Aid Services for suburban Boston, including Arlington.

The new first aid will be given to boys gym classes. Mr. Ralph Bevins, director of the physical education department, and Mr. Charles Downes, principal of the high school have initiated this course to round out the gym program until the new gym is ready for classes.

The new standard first aid course now requires ten hours of class time. Eventually it is planned to have every graduate of the school take this course. In addition to the actual first aid training youth will be taught to be self-minded and conscious of hazards. This alone is recommended as an asset to student driver training.

Lt. Philip A. Sweeney, director of Civil Defense is enthusiastic about this program. In emergencies these youths will be an asset to the civil defense, and to the needs of their community.

## Chamber Head Comments Heights Post Office

In a letter to Postmaster Finn, Ralph R. Hudson, President of the Arlington Chamber of Commerce last week commended the men of the Arlington Heights Post Office for their work in decorating during the Christmas season.

The letter to Mr. Finn follows: Postmaster J. P. W. Finn General Postoffice Boston, Mass.

Dear Mr. Finn: Too often, your department is criticized, while the good deeds of your employees go on unnoticed and without comment from the public.

This is to commend the men of your Arlington Heights Station for their public spirit in decorating in a most appropriate fashion, and at their own expense, the Heights station during the holiday season.

Such extra service, we feel, should be recognized by the Postoffice officials and the patrons.

Very truly yours, Ralph R. Hudson, President Arlington Chamber of Commerce.

## Kiwanis Notes

Dick Saunders, a representative of the Armstrong Cork Company, will show a film depicting the relationship of floors to interior decoration at the meeting of the Arlington Kiwanis Club January 23, at 12:15 p.m. at the Old Mill.

## Victory Costly For Locals As Donovan Breaks Ankle

Arlington high school's basketball team won a costly victory over Newton high school to take over undisputed possession of fourth place in the Suburban League standing, Tuesday night, at the Junior High West.

The 71-59 triumph was costly from a local standpoint as Captain Jay Donovan, center of the Arlington five sustained a slight fracture of the ankle in the fourth period of the contest. Donovan is expected to be lost to the Arlington team for at least ten days, possibly longer.

The locals gained no ground, however, in their quest to move higher in the standings as the three clubs above them—Cambridge Latin, Brockton and Waltham also chalked up victories Tuesday night.

At the present time Latin paces the loop with a 7-0 mark; Waltham and Brockton have identical 5-2 records and Arlington has a 4-3 mark.

Scully paced the Arlington attack in the Tuesday night win with 20 points, while Donovan chipped in with 16 points prior to his injury, and "shorty" Gilpatrick added 13 points.

York led the Newton scorers with 14 points, Woodcock scored 12, and Russo 10.

## Elected Officers

Several local residents were named as officers of Wentworth Institute student clubs by H. Russell Beatty, president of Wentworth Institute which trains industrial and engineering technicians.

James Metcalf, 134 Rawson rd., has been appointed chairman of the American Society of Tool Engineers; Donald Skilton, 152 Appleton street, president of the Art Appreciation Club; Jerrett W. Kidd, 47 Lewis avenue, president of Leathercraft Club; Albert J. Held, 38 Cornell street, Scale Boat and Model Club vice president; Robert Knowles, 182 Highland ave., secretary of the Leathercraft Club.

## Memory Expert Guest Speaker

Henry Szafarz of Arlington, teacher and lecturer on memory training is speaking to the Mr. and Mrs. Club group of the First Baptist Church February 1.

Mr. Szafarz denies a photographic mind, on the contrary, signed up for the Bruno Furst System of memory a little over three years ago because he had what he considered "an extremely bad memory". Today, Mr. Szafarz is able to memorize entire magazines, newspapers, and other complicated material with recall of minutest details. He has memorized a deck of cards in minutes and has demonstrated his abilities on radio and on stage with Lee Meriwether of the Garroway show and other theatrical personalities.

Hundreds of people, doctors, lawyers, police, government agents, students, housewives, etc. have learned this system from Mr. Szafarz in a downtown business school. Because too many teachers still tell their students what they must learn but not how to learn it, he forsook the day when a similar course will be taught in our public schools. More and more psychologists and workers in the field of memory training are giving their approval to these centuries-old secrets of more efficient learning.

Beside his interest in memory, Mr. Szafarz is a consultant art director in the field of advertising. He has authored two books and is a free lance writer of articles relating to the advertising business.

The Lesson-Sermon entitled "Truth" will include the following from Matthew (9:35): "And Jesus went about all the cities and villages, teaching in their synagogues, and preaching the gospel of the kingdom and healing every sickness and every disease among the people."

Correlative selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (494:30): "Our Master cast out devils (evils) and healed the sick. It should be said of his followers also, that they cast fear and all evil out of themselves and others and heal the sick. God will heal the sick through man, whenever man is governed by God. Truth casts out error now as surely as it did nineteen centuries ago. All of Truth is not understood; hence its healing power is not fully demonstrated."

Alive today... because they went to their doctors in time! Every year more and more Americans are being cured of cancer! But the tragic fact, our doctors tell us, is that every sixth cancer death is a needless death. So many people just don't consult their doctors when the disease is in its early... and therefore more curable... stage. Let's give our doctors a chance to head off cancer in time! Form the life-saving habit of a head-to-toe health checkup once a year. For men, this should include a chest x-ray; for women, a pelvic examination. Make it a habit... for life.

## DEADLINE AT HAND

Deadline time is rapidly approaching for those who would seek public office in the Town of Arlington come March.

In fact, one deadline, January 20, has already "gone by the boards".

Town Meeting members seeking re-election to office had until 5 p.m., Monday night, to give written notice that they would seek re-election. If they did not give written notice prior to that deadline they will now be obliged to file papers with the proper number of signatures just as other members who are seeking office but not re-election.

Next Monday at 5 p.m. is the final day for all candidates seeking election March 3 to submit all nomination papers with the Registrars of Voters for certification of signatures.

One week later, February 3 at 5 p.m. is the last day and hour for filing certificates of nomination or nomination papers.

Those seeking to withdraw from the election have until February 4, at 5 p.m., to do so.

## COMING EVENT

The Boy Scouts of America observes its 48th anniversary during Boy Scout Week, February 7 to 13, by launching a yearlong nationwide Good Turn. The Safety Good Turn, undertaken at the suggestion of President Dwight D. Eisenhower, will find 4,700,000 boys and leaders engaged in promoting traffic safety, outdoor safety, and home safety.

We are accustomed to great achievements from our Boy Scouts. Their outstanding work in the 1952 and 1956 Get-Out-the-Vote campaigns, their Conservation Good Turn in 1954, their collection of nearly two million items of clothing, foodstuffs, and supplies for the needy in 1954, and other activities in behalf of their fellow Americans have given us approximately twenty million past and present Boy Scouts who have learned the real meaning of service.

Calling the Safety Good Turn "an opportunity for service to your country in the highest tradition of the Boy Scouts of America," President Eisenhower said, "We must seek new ways to save the basic resources of our Nation: its people."

He told the Boy Scouts that he was encouraged by the splendid results of their Conservation Good Turn. "I now urge you," he wrote, "to adopt Safety as your service project for 1958. Through the concerted action of your members, and in cooperation with other organizations, you can alert the public to the urgent need for reducing the tragic toll of accidents."

We congratulate the Boy Scouts on past achievements and wish them well as they undertake this great public service to the community, state, and nation.

## Babson Discusses

### The Markets

(Exclusive Chronicle Feature)

Roger W. Babson

For some years I have been contributing large sums to the Gravity Research Foundation of New Boston, N. H. We have been trying to learn what gravity is, — whether it can be controlled. Gravity influences everything from the lightest feather to the heaviest metal. Thus far, no insulator has been found for gravity. To hold anything up against the force of gravity requires force.

#### GRAVITY MAY BE A SPIRIT

Some believe that everything—including thoughts, prices, morals, ambition, and faith—are being constantly pulled down by gravity. I surely believe that such gravity has a constant downward pull on the stock market. As constant force is needed to keep up an airplane, kite, or balloon, so constant buying is needed to keep up prices. Force can raise prices as it can raise a load in an elevator. Furthermore, prices will fall as soon as this force is removed. Sir Isaac Newton's Law of Gravitation will be found to apply to the actions of the stock market.

We hear much about "value lines," "Dow Theories," and various statistical formulas to forecast markets; but I believe they are all helpless to keep stocks up, or make them rise, except as they increase buying. By the law of gravitation, prices of all kinds, including real estate, bonds, and interest rates will fall unless supported. Thus the successful investor usually need only wait until the artificial supports are removed and he can then get stocks at his own price. This is why General Electric, General Motors, and other good stocks sold for only a few dollars per share in 1932. They kept declining until support came. This will again repeat itself.

#### OUTLOOK FOR WORLD WAR III

Newton's Law of Gravitation will determine the future of international affairs. Conditions will continue to become worse until some nation falls. This need not be Russia. This fall will shorten the cold war, and either hasten peace or World War III. What Secretary Dulles, or Churchill, or the Pope may say has very little bearing. What nation will be first to fall we do not now know, any more than we now know which of our big corporations will be the first to fall. It will be the first one from which support is withdrawn.

The same fact applies to our national politics. Every political party in power, remains in power until the public withdraws support. Then, by Newton's Law, it falls whether its principles are right or wrong. As the seed corn naturally falls to the ground so does everything else,—good and bad. England and France won World War II because of the support of the U. S. The outcome of World War III, if it comes, will likewise depend upon the support of our present allies.

#### GRAVITATION OF MORALS

When I was a boy in church and Sunday School, I was seriously taught about a "personal devil" who was continually pulling me down morally. Now this "personal devil" has gone out of fashion in most modern thinking; but we are constantly being pulled down morally nevertheless. One great trouble with our nation today is that this "personal devil" is no longer popular and few preachers have given us anything worthwhile in its place. They should frankly tell us that "gravitation" is constantly pulling us down morally as it is pulling us down physically. It finally pulls us into the grave.

All the above means that there is no ultimate protection in any stocks, bonds, mortgages, real estate, or anything else, but constant supervision, proper diversification, and courage to act. Hence, the rule is "from shirt sleeves in three generations" for those who neglect such support. Nature does not provide security for any of us. It is impossible to "retire" without rotting away. Constant struggle against evil is necessary for self-preservation both for individuals and nations. This law of gravitation not money, missiles or other military equipment will decide our future.

I want to extend to you and to each and every member of the Arlington Municipal Employees Assn. my sincere thanks for the most generous donation of assorted toys etc. received here at the school.

I assure you the contribution brought much festive cheer to our patients, who were so pleased and made so happy by the toys. Many, many thanks.

## From Beacon Hill

BY JAMES G. COLBERT  
Former Boston Post Political Editor

Governor Furcolo has accomplished at least an outward appearance of Democratic unity and harmony on Beacon Hill.

How deep it really goes and how long it will last may be open to question, but at the moment most of the Democrats at the State House, from Furcolo down, are exercising considerable care to avoid rocking the party boat.

That can be attributed principally to the fact that the shadow of the 1958 State election looms large in the political sky, a situation which obviously is having an effect upon Governor Furcolo as well as Democratic leaders and legislators.

It undoubtedly will be reflected, too, when members of the usually strife-ridden Democratic State Committee meet within the next few weeks and vote to comply with the wishes of Senator John F. Kennedy and Governor Furcolo that their party hold no pre-primary State convention this year.

The Governor himself is principally responsible for the air of Democratic peace which presently prevails on Beacon Hill.

He has adopted a different approach to his relationship with the Legislature than he followed a year ago.

Where last year Governor Furcolo made up his own mind, reached his own decisions and then told legislative leaders of his party what he was going to do, brushing aside any objections they had, he now is sitting down in advance with the Democratic chieftains, talking things out with them, listening to their advice and in some cases at least, following it.

#### Welcome Mat Out

Democratic leaders in the Legislature were told in advance what he was going to say in his budget message, were assured by the Governor that he would make no fight for a sales tax this year and would not advocate the enactment of any new taxes which would cause them political embarrassment.

Where Democratic legislators complained bitterly at times last year about their inability to see the Governor and talk with him personally, the welcome mat now is set aside almost every afternoon when they may meet with Furcolo.

That has resulted in a much friendlier feeling on the part of the Democratic law-makers toward their party head.

It would be inaccurate to report that all the Democrats in the House and Senate are enthusiastic about Furcolo or that those who have suffered rebuffs at his hands or at his direction have forgotten their grievances.

But it is a fact that Governor Furcolo has improved his relationship with the Legislature tremendously during the past three weeks.

Governor's Councillor Christian A. Herter, Jr., may have been indirectly responsible in some measure for the sudden endeavors to tighten the Democratic hatches in preparation for the political storm ahead.

While they aren't saying so publicly, the Democratic politicians privately have a very healthy respect both for the younger Herter as a political adversary and for the kind of fight he could wage as head of the Republican State ticket. It may be somewhat significant that the efforts to bring Democratic peace coincided closely with the news that Herter intended to seek the GOP endorsement for Governor.

Believes Chances Brighter  
Democratic State Senate Leader John E. Powers, who battled Furcolo so forcefully last year on the sales tax issue, has been working fairly closely with the Governor in recent weeks and has sat in on the conferences at which Democratic strategy has been mapped for the present legislative session.

No close bond of friendship exists between Furcolo and Powers, as it does between the Governor and Speaker John F. Thompson, and none is likely to be created. Furcolo and Powers, however, have put aside their differences at least as far as the public is concerned, and Powers loses no opportunity to predict Governor Furcolo's reelection.

Senator Powers believes, incidentally, that Furcolo's prospects of achieving a second term in the Governorship are far brighter than would be the case if Furcolo had won his fight for the sales tax and the tax were now in effect. It would be interesting to know whether Governor Furcolo concurs in that opinion.

A real political pro in every sense of the word, Powers reserves for himself the right to differ with

Furcolo on individual issues and possibly even the right to reduce the Governor's budget if he deems such a step necessary. But the fighting little Senator, who is now serving his 20th year on Beacon Hill, makes it plain that he will be out campaigning for Governor Furcolo next autumn.

Senator Powers feels that the major questions before the Legislature this year will be how to balance the State budget without enacting any new taxes, save possibly for an additional cent per package on cigarettes, and to find a solution to the troublesome railroad commuter problem.

#### Last Contest

Powers parried the question when it was put to him, but it is known that he and other conscientious Democratic legislators are troubled about the tieups between certain of the railroads and influential figures in the Democratic party.

Some political observers are assuming that the fight for the Republican nomination for Governor will be the last contest to be settled at the GOP pre-primary convention in June and that consequently it will be impossible for the unsuccessful gubernatorial contenders to accept other places on the State ticket.

That could prove to be the case, but it's highly improbable that it will.

The convention delegates can adopt any order of business they desire. Usually they approve whatever schedule is mapped out for them by the State Committee chairman or the committee he appoints.

However, there is no hard and fast rule covering the order in which the places on a State ticket may be filled.

What the Democrats usually do is list the contests in the order in which they appear on the ballot, with the Governor first. They departed from that procedure in 1954 however, to make the selection of a candidate for the U. S. Senate their first order of business.

The Republicans at their convention in 1954 and 1956 followed a different order, endorsing candidates for the lesser State offices first and for the Governorship last.

Two obvious reasons for that schedule is that the endorsement of a gubernatorial candidate, the demonstration by his supporters and his acceptance speech usually provide the climax of any State convention.

#### All On Tickets

These factors, of course, are not as important as the necessity for putting together the strongest State ticket which can be picked, and the likelihood is that the Republicans will revise their convention arrangement this year to fit the circumstances confronting them.

Unless the GOP gubernatorial contenders settle their differences in advance of the conclave the guessing is that the selection of the candidate for Governor will be the first piece of business the Republican delegates will be called

upon to perform.

If Attorney General Fingold, for example, should fail in his quest for the gubernatorial nomination, the GOP obviously would want him somewhere else on its State ticket. The same thing would be true of Executive Councillor Herter and former Speaker Gibbons.

Most Republicans anticipate that Herter, Fingold and Gibbons all will wind up somewhere on the ticket selected by the delegates who assemble in Worcester next June.

That probably explains why no rush of candidates for the lesser spots on the Republican slate has developed to date.

Former State Committee Chairman Elmer C. Nelson has declared himself a contender for the nomination for Lieutenant Governor, but there is some uncertainty as to how serious his intentions are.

Back in December, 1956, when Gibbons was elected to the Republican State Committee chairmanship, Nelson told reporters he might be a candidate for Governor himself in 1958.

Since then he has swung behind Fingold as his gubernatorial choice, and while he has been out endeavoring to line up support for the Attorney General there has been no indication that he has been doing the same for himself.

Judge M. Edward Viola report-

edly has been considering becoming a candidate for Attorney General. It isn't likely, however, that he would give up his seat on the bench to make a bid for that office unless the situation were a good deal clearer than it is now.
